Dual Sensor (4-20mA Output)

Description
The Sensaphone FGD-0109 Dual Sensor is a compact and user friendly temperature and humidity sensor. It measures and displays both ambient temperature and relative humidity at the same time. Two 4-20mA analog outputs are available.

Specifications
- **Dimensions:** 80 x 80 x 28mm
- **Weight:** 250g
- **Housing:** White plastic
- **Power Requirement:** 12 – 24V DC
- **Temperature Range:** 0°C – 50°C (-32°F – 122°F)
- **Humidity Range:** 0 – 100% RH
- **Accuracy:**
  - Temperature: ± 0.5°C at 25°C
  - Humidity: ± 5% RH at 25°C
- **Temperature Display Unit:** Degree Celsius or Degree Fahrenheit
- **Compatibility:**
  - 1400, 1800, 2000, 2800, Express II, WEB600, SensaVideo
